

Message from the Principal

Dear Parents and Guardians,

Thank you for taking an interest in
‘Kids Garden Montessori’

We hope this flyer gives you a glimpse into the essence of KGM, but the true experience can only be felt by visiting our school.

At KGM, we have big dreams for our children. Our aim is to bring our best in our students.

We provide children with an excellent academic program while also nurturing them in six areas of learning: Physical, Intellectual, Language, Emotional, Social and Creativity. This holistic approach ensures they are fully prepared and capable of taking on future challenges.

When a child enrolls in our school, we are committed to making their success our success.

“Every Child is Unique. Every Child Matters.”

Mrs. Pramita Gurung

Our Philosophy

At Kids Garden Montessori, we create an environment where children are encouraged to develop at their own pace, gaining confidence in their abilities.

Respect for the Child:

Every child is treated as an individual, fostering respect for themselves, others, and their environment.

Independent Learning:

Children choose their activities based on their interests, promoting autonomy and decision-making skills.

Mixed Age Groups:

Students from different age groups work together, learning from one another, fostering social and emotional growth.

Hands-on Learning:

Through Montessori materials, children engage in sensory-rich activities that reinforce abstract concepts.

Our Montessori Curriculum

At kids Garden Montessori, ***“we follow a curriculum designed by the government of Nepal, along with Montessori Curriculum, to achieve the best results.”***

We create an environment where children are encouraged to develop at their own pace gaining confidence in their abilities.

We believe in:

Practical Life

Skills, Activities like pouring, cleaning, and dressing that teach everyday skills and responsibility.

Sensorial

Materials that help children refine their senses (sight, touch, hear, taste and feel etc.) to better understand the world around them.

Mathematics

Hands-on materials which allow children to experience and understand mathematical concepts at their own pace.

Language

Encouraging communication through reading, writing, storytelling, and vocabulary development.

Cultural Studies

Introducing children to geography, history, science, and world cultures to foster global awareness.

Creativity

Encourage children in art, dance music and sports.

Montessori Lab

A dedicated space where young learners explore hands-on activities using Montessori materials. This environment fosters independence, creativity, and self-directed learning.

Nap (Sleeping Room)

A cozy, quiet space where young children can rest and recharge during the day. The room is equipped with comfortable single bedding and maintained with utmost hygiene.

Transportation

Safe and reliable school transportation with well-maintained vehicles and trained staff to ensure a comfortable journey for students.

School Kitchen/ Dinning

A clean and hygienic kitchen that prepares nutritious, balanced meals. Our dining area provides a warm, communal space where students enjoy their meals.

Classroom

Bright, welcoming classrooms designed to promote focused learning and collaboration. Each space is equipped with age-appropriate resources to encourage intellectual growth and curiosity.

Playgroup

A safe, fun, and nurturing environment where young children can learn, explore, and grow through play. Our experienced and caring staff ensure a warm and engaging atmosphere that fosters early development and social skills.

ECA ROOM

A creative hub where students engage in art, music, dance, and other extracurricular activities. This space encourages talent development and holistic growth.

Playground

A vibrant outdoor area designed for active play and physical development. Equipped with age-appropriate play structures, the playground ensures safety and fun for all students.

Book Corner

Our Book Corner is cozy and inviting space where children can explore the joy of reading.

Day Care (6 months above)

Our Day care program is designed to nurture the baby's early development with individual attention and stimulating activities. This program focuses on developing motor skills, language skills, and social interactions through play and structured activities.

After-School Care (Extended Hour)

A fun and supportive environment for children to do their homework, engage in enriching activities, and relax after a school day.
